

ST. PIUS X PARISH

Master Plan

Sharing the Vision . . . Centered in God

Background

In January 2008, parish leaders and members of our Parish initiated a comprehensive long-range planning process for St. Pius X Parish, which resulted in *The Long-Range Advancement Plan*. Through this process, hundreds of parish families were involved in identifying challenges, creating solutions and determining priorities. For over a year now, six Commissions have been working to implement key components of the plan. This ongoing process has energized the parish and produced positive results in our Parish ministries, outreach and services.

Growing Needs

St. Pius X Parish has experienced tremendous growth over the last ten years with the addition of our new school and high population increases within our Parish boundaries. The results of a comprehensive parish survey revealed serious facility limitations, which will only worsen, given our current and projected parish growth. Major needs identified include: increased worship space, expanded meeting rooms, additional space at St. Pius Elementary School, added parking & improved traffic flow, and acquisition of adjacent properties for expansion.

The Building Committee

Based on key recommendations included in the Long-Range Advancement Plan and our comprehensive parish survey, a Building Committee was formed to determine the feasibility of implementing a Master Plan for Facilities. In March 2010, the Committee decided to seek additional input and feedback from Parishioners through: Listening Sessions, a Parish Assembly, a Q & A Booklet, a Discovery Survey and a Financial Feasibility Study.

Your response to the Proposed Master Plan will determine our next steps. Thus, we are once again inviting you to share your thoughts with us regarding the future of St. Pius X Parish.

The Proposed Master Plan

The following items represent the components of the Proposed Master Plan:

- Construction of a Church with seating & ritual space to meet our anticipated needs
- Provide for Additional parking & expansion
- Acquisition of adjacent properties to provide for expansion
- Construct a new Library and Pre-school wing for St. Pius Elementary School
- Construction of additional Meeting and Office Space

Approximate Cost: \$12 - 15 million
